With High Quality **Metal Body**

## CATALOGUE

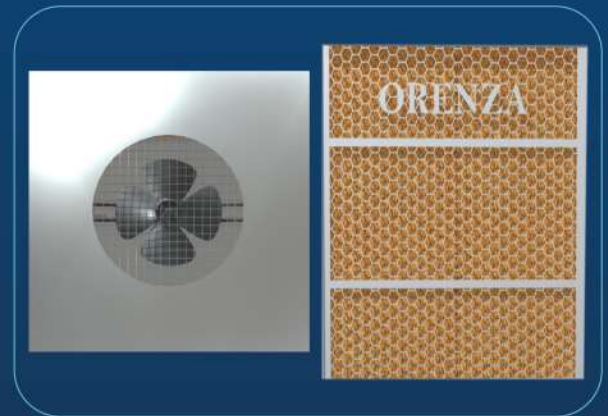

# ORENZA Industrial Air Cooler

These air coolers will perch perfectly on a window sill and cool your room evenly with a 4-way air deflection system. Equipped with a large water tank that lasts for hours, these air coolers provide maximum air delivery while consuming minimum energy. Our most powerful air coolers are made with powder-coated metal sheets and can withstand the toughest weather while keeping them rust-free. The super-effective fan-motor combo makes them ideal for large, open spaces.

## AIR COOLERS

## ORENZA INDUS 21

- 1) Rugged Aesthetics; Manufactured with high quality metal.
- 2) Galvanized steel body with Powder coating for long durability
- 3) Suitable for Wall Mounted Fitting / Window Fitting / Centralised Ducting
- 4) Four Side Cooling pad for better cooling efficiency
- 5) Fitted with Float Ball for continuous water supply
- 6) Easy maintenance

|                               |                   |
|-------------------------------|-------------------|
| Industrial Model              | INDUS 21          |
| Model No.                     | OT21              |
| Dimension (L x B x H) INCH    | 79 x 35 x 35      |
| Cooling Area                  | 1000 Sq.ft.       |
| Tank Capacity                 | 135 ltrs          |
| Fan Size                      | 21 inches         |
| Fan Speed                     | 1 Speed           |
| Cooling Media                 | Aspen / HoneyComb |
| Controller                    | Manual            |
| Air Displacement (Approx CFM) | 3150              |
| Airflow RPM                   | 1100              |
| Output Watts                  | 485 w             |
| Float Valve                   | Yes               |
| Drain Valve                   | Yes               |
| Sound Level (dB)              | 74 dB             |
| Weight (Kg)                   | 65 Kg             |
| Air Discharge Type            | Top/Front         |

The power to control the weather is now in your hands.
